The overlapping European Union (EU) regimes of competition law and State aid law both provide a framework for the intervention of the State into the internal market. This book seeks to fill this gap in our understanding of the economic constitution by exploring the significance of State aid law in addressing questions that go to the core of the internal market project. It does so by examining the key obstacles and best practices in private enforcement actions, this highly informative and practical volume facilitates choice of the best forum for competition and State aid law cases. Academics and practitioners engaged with this form of intervention and their implications for the functioning of the single market and the economy. This book presents an authoritative and comprehensive analysis of all aspects of the State aid discipline in EU competition law. It provides a valuable tool for practitioners, students, and researchers alike. The book covers all the case law of both courts until the end of 2015. With this book practitioners will quickly find relevant paragraphs and full citations regarding all issues raised by Articles 107–109 TFEU, including the following:

- territorial scope of State aids;
- Article 107(1) EC and WTO Agreements;
- conditions for categorizing a national measure as State aid;
- free movement of goods;
- undertakings;
- private versus public investment;
- role of economic analysis;
- ecotaxes;
- privatization;
- remedies;
- existing aid;
- third parties;
- actions against State aid decisions;
- national court decisions;
- fiscal and non-fiscal aid; and much more.

The book provides a comprehensive overview of the State aid discipline in EU competition law, covering all aspects of State aid, from the definitions of State aid and the legal framework to the practical application of these rules in specific cases. It includes analyses of key cases and developments in the case law, as well as detailed discussions of key issues such as the assessment of State aid, the role of economic analysis, and the enforcement of State aid decisions.

The book is structured in a user-friendly format, with clear headings and subheadings, making it easy to navigate and find the information you need. It includes tables and charts to help summarize key points and highlight important developments. The book also includes a comprehensive index, allowing you to quickly locate information on specific topics.

The book is an essential resource for anyone working in the area of State aid law, whether in academia, law firms, or government bodies. It will be an invaluable reference for students and practitioners alike, providing a comprehensive and up-to-date overview of the State aid discipline in EU competition law.
